11:00* Discussion: with Professor Philip Clayton and conference participants Science 106
12:00 Luncheon: College Cafeteria
1:00 Adjourn

***Discussions:** Discussions among speaker and conference participants are the highlight of the conference and open to all registered participants. Limited registration makes these possible.

Lectures: Lectures on Friday evening and Saturday morning are open to the public. The Sunday morning lecture is for registered participants.

Meals/fellowship/networking: Time for fellowship, networking, and more concentrated discussions is provided by meals together and the Saturday evening reception after the meal at Miller's. Topics for the dialog often begin in these settings. These are open to registered participants.

Music: Music will be provided by *Farther Along*, a local group consisting of Goshen students and graduates. The general public is welcome to this 15 minute rendition.
