

Craft—Painted Rock Turtles or Snakes

Items needed:

- Paint
- Brushes— or fingers, get creative!
- Access to rocks

This craft is fun for anyone. It can be adapted based on supplies, skill level, and how in depth/detailed you want to make your rock friends.

The attached photos below can be used as a guide for different ways this craft can be accomplished. I recommend spending time outside, finding and choosing the rocks you want to use.

You can use this as an activity that is just for fun, or as an opportunity to study scale patterns or discuss the hardness of turtle shells.
