Semester SST: The traditional SST semesters abroad will be offered as before and students can sign up on MyGC anytime. PLEASE have students sign up for next year's semester options in the fall to facilitate our planning. Orientation starts one semester before going on Semester SST and language requirements need to be in process or finished by that semester. Students complete the capstone requirement after they return. Students need to have a 2.0 GPA prior to the orientation semester and prior to the start of the semester.
