

Goshen College Flexible Spending Accounts

Introduction

Our Plan will be administered by The Harrison Group, Inc. which is located in Havertown, PA. The following is a summary of how your FSA's will operate.

How they Work

Flexible Spending Accounts enable you to set aside a predetermined dollar amount in an account to cover eligible out-of-pocket health care expenses throughout the year. IRS rules allow you to contribute to your account(s) through payroll deduction on a pre-tax basis — before federal income tax, social security, or (in most cases) state withholding taxes are deducted — reducing your taxable income and increasing your spendable income. Then, at the point-of-sale for these qualified expenses, you can access your funds by using your Debit Card. (Paper claims are also accepted.)

Available to You

Healthcare Flexible Spending Account: This account may be used to pay for healthcare expenses not covered under any other plan. Qualified expenses may include deductibles and coinsurance, prescription and office visit co-pays, dental coinsurance, orthodontics, medical equipment, eyeglasses and contact lenses, etc. The Plan Year maximum contribution amount is \$2,750. Any unused balances up to \$550 as of June 30, 2022 can be carried over to the next Plan Year.

Dependent Care Flexible Spending Account: This account may be used to pay for eligible dependent care expenses with pre-tax dollars. Eligible expenses include, but are not limited to, before and after school programs, nursery or preschool tuition, summer day camp, or in-home care by a licensed provider. The maximum contribution amount for the Plan Year is \$5,000 for a married couple filing jointly, \$5,000 for a single parent, and \$2,500 for a married person filing separately.

Use it, or Lose it

Whether you participate in either the Healthcare FSA or Dependent Care FSA you'll need to set your annual contribution goal amount(s) carefully. Estimate your anticipated out-of-pocket expenses as accurately as possible to put aside enough to cover them — without contributing more than you need. You can, however, carry over up to \$550 to the next Plan Year for the Healthcare FSA.

Other Information

- The Plan Year is July 1, 2021 through June 30, 2022. Expenses incurred on or before June 30, 2022 can be reimbursed for the Plan Year, if submitted for reimbursement within 90 days after June 30, 2022. This 90-day period is known as the Run-out Period.
- Up to \$550 remaining in your Healthcare Flexible Spending Account at the end of the Run-out Period can be carried over to the next Plan Year.
- If you were an FSA participant for last Plan Year, you will be able to use your existing debit card to pay for eligible expenses if you are a participant for the new Plan Year.
- If you were not an FSA participant last Plan Year, you will receive 2 debit cards in the mail. If you are married, your spouse can use the second card, just by signing his or her name on the back of the card. If you are single, you can use the extra card as a backup in the event that you lose your card.
- You will receive your debit card in approximately 7 to 10 days after your election form is processed. You will need to activate your card, by calling the 800 number on your card.
