The Academic Success Center (ASC) coordinates peer-tutored study groups of up to five students who meet with a paid student tutor for one hour per week. To participate in a proctored study group, you must commit to being prepared for each session, having read the required readings and attempted the required homework.

We need one contact person. Judy Weaver, director of the ASC, will assign a tutor and facilitate the initial contact between tutor and contact person. It is the contact person's responsibility to maintain good communication with the tutor throughout the semester.

We wish you great success this semester!
