

Master of Arts in Teaching

Online, Elementary Education & Secondary Education

Curriculum

The Goshen College courses are fully remote and designed to reflect your rhythm as a teacher. Courses slow down and meet synchronously during the school year, then accelerate and are asynchronous during the summer. Regular Zoom meetings during the academic year allow you to discuss topics with your classmates and professors in real time, while the summer gives you more flexibility to get the work done from anywhere, anytime. See more details about each class below.

Elementary Track

FALL | 4 credits

Synchronous Zoom meetings

- Educ 500 Essentials of Teaching
- Educ 505 Psychology of Learning
